EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Bradley Groff on January 9, 2006.

The application has been amended as follows: claims 17-39 are cancelled, and claims 1-7 and 13 are reconsidered for examination and allowability.

2. The following changes to the drawings have been approved by the examiner and agreed upon by applicant: inclusion of drawings featuring "a biasing spring," as described in the specification, recited in claims 4 and 13, and pictured in the provisional application 60/443936, filed 1/31/2003. Any change in the drawings must be supported by commensurate amendments to the specification. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

Allowable Subject Matter

3. Claims 1-16 are allowed. The following is an examiner's statement of reasons for allowance: the prior art of record neither discloses nor makes obvious a muzzle-loading firearm including a pivoting and locking block for cleaning and replacement of spent percussion caps. Similar, but distinct, prior art includes: Compton (4,452,001) discloses a pivoting and locking mechanism for a non-muzzle-loading firearm, Delis (3,526,051) discloses a biasing spring, and Post (5,722,193) discloses a pivoting mechanism for a muzzle-loading firearm.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
